

REMARKS

The title is amended to avoid confusion with the parent.

The new claims are modeled after claims in application 09/755,069 (filed in the United States on January 8, 2001, and published as US20010016049 on August 23, 2001). (Certain of the multiple-dependent claims have been rewritten to depend from a single claim. The final independent claims correspond to earlier claims but omit "means" and "step" language.)
